

Allycar Partner Program

Elevating the car rental experience for families visiting Orlando.

PREMIUM B2B PARTNERSHIP PROGRAM

The Market Pain Point

Travelers arrive in Orlando expecting **magic** — but car rental often becomes the very **first friction** point. Long lines, hidden fees, unclear insurance, security deposits, surprise charges, and not getting the car they actually booked. The excitement of a family vacation is deflated before the first mile is driven.

Long Lines

Hours lost at counters during peak travel days

Hidden Fees

Insurance upsells, deposits, and surprise charges

Wrong Vehicle

Families don't receive the car they reserved

Zero Support

No multilingual help when travelers need it most

Allycar's Positioning

Allycar was built for travelers who want more than transportation. We deliver **comfort, predictability, agility, and peace of mind** — so families can focus entirely on the experience, not the rental process. We don't compete on price. We compete on trust, completeness, and the quality of every touchpoint from booking to return.

We raise the standard of what car rental in Orlando can and should be.

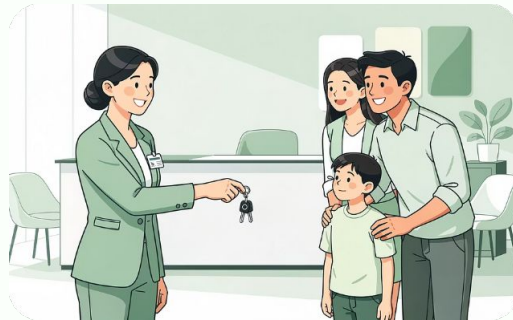

Why Allycar Is Different

In a market dominated by legacy brands optimizing for volume, Allycar is purpose-built for a different kind of traveler — and a different kind of partner relationship.

The Founder

Ofli Guimarães

Co-founder of Méliuz — one of Brazil's most celebrated technology companies, listed on B3 in 2020 in a landmark Brazilian startup IPO.

The Entrepreneurial Logic Behind Allycar

Méliuz was founded in 2011 by Ofli Guimarães and Israel Salmen after identifying a clear **consumer pain** in loyalty programs — and building a cashback model centered on real, transparent value. That same **entrepreneurial instinct** now powers Allycar.

→ Identify a Broken Experience

Traditional car rental in Orlando fails families at every touchpoint.

→ Redesign the Value Proposition

Build a complete, transparent, premium alternative from the ground up.

→ Raise the Market Standard

Set a new benchmark — not just offer another option.

Why Allycar Exists

Allycar was born from Ofli's own **frustrating experiences** renting cars in Orlando. As a traveler who valued quality and simplicity, he repeatedly encountered a market that prioritized volume over experience — upsells over clarity, queues over respect for the customer's time.

What We Refused to Build

A commodity rental company competing on the lowest daily rate with opaque fees and interchangeable service.

What We Built Instead

A premium, founder-led experience with zero surprises, premium vehicles, and complete support — worthy of the Orlando vacation it enables.

Everything Included. Nothing Hidden.

Our **complete** package was designed to eliminate every objection, every uncertainty, and every unpleasant surprise — **for your clients and for you.**

Why This Matters for Partners
